Somewhere In Between

BEGUN

Sick and tired of rats and races
Happiness a million clicks away
Dizzy from the spinning faces
Could be king of silence for a day
Life, no matter what the size of the fishbow
Will always be the same

Getting back, the fire burning
Can't think of a place I'd rather be
Nothing's bad enough to pull me under
Ready for another ride for free
As long as I feel good enough for service
You're gonna dance with me

One for the fun
Like a song on the run
Gimme water to turn into wine
Back from the ashes, staring at the sun
Two for the show
Light me up as I go
Make it for real this time
Back at the right place
Life has just begun, life has just begun

Rising levels of addiction
Turning up the volume and the heat
Living for this chemical reaction
Nothing comes close to the real thing
Fine by me if you wanna call it madness
But if you scream !

One for the fun
Like a song on the run
Gimme water to turn into wine
Back from the ashes, staring at the sun
Two for the show
Light me up as I go
Make it for real this time
Back at the right place
Life has just begun, life has just begun

SKIN AND SOUL

I think I'm going blind but I still love
The way you're movin'
I like to take my time but I don't mind
If you keep on pushin' Do what you got to do

You're spinning me around, and I'm not sure
'Bout the way I'm feelin'
You know too well your walk the way you talk
Can drive me crazy Now what am I supposed to do ?
Don't take life too seriously, we'll never get out alive

Skin & soul, Rock N Roll 'til sunday morning
Let's get the best, we're something else
We're outta reach yeah
I want nothing more than everything

Maybe nothing has changed but things are strange
And there's no secret
I think I know this place but now your face
Is all I'm seeing
Tonight I'm coming back to you
Don't take life too seriously, we'll never get out alive

Skin & soul, Rock N Roll 'til sunday morning
Let's get the best, we're something else
We're outta reach yeah
I want nothing more than everything, everything

You got me where you wanted,
Well I'll sleep when I'm gone
Maybe we are going somewhere,
Maybe we are going nowhere
Don't take life too seriously, we'll never get out alive

Skin & soul, Rock N Roll 'til sunday morning
Let's get the best, we're something else
We're outta reach yeah
I want nothing more than everything
I want your skin & soul, and R'n Roll 'til sunday morning
Let's get the best, We're something else
We're outta reach yeah
I want nothing more than everything

PETER PAN

Look out I'm the fireman
On my way to the moon
Get ready for the party
You can be the mystery boy
Be whatever you want
On a mission for the city
Mine is yours & yours is mine
We can save the world, right on time
The force is strong in my family
We can't be defeated if you come with me
Life is much easier when dreams are free

Save all your wishes from all of your fears
Even when you feel the world is falling down on you
Trading all the answers for someone you know
A touch of fairy dust, spirit starts to glow
Don't be scared of growing, but never grow old

Look out I'm a superfreak
Fistful of sand
If you wanna try to catch me
We run at the speed of life
Time flies so fast
Enjoy, you won't be sorry
Be yourself, run from fakes
It's OK to be wrong, we all make mistakes
You can pretend but don't live a lie
Happiness is more than meets the eye
Life is much easier when you can fly

Save all your wishes from all of your fears
Even when you feel the world is falling down on you
Trading all the answers for someone you know
A touch of fairy dust, spirit starts to glow
Don't be scared of growing, but never grow old

People will come, the bad ones will go
Never forget what you already know

Bass : Did Thery
Drums : JP Arnal

ONCE A LOVER, TWICE A FRIEND

Mars and Venus just collided
We've tasted blood, now skins are calling
Done connection I swear I can feel you in the air
Way too hot and talking dirty
And now we're stuck in Crystal City
I'm not sure if I want out of here

Now we're somewhere in between
And we know that things could be

Easier
If pleasure wasn't worth the pain
So much easier
But life would never taste the same
You'll never lose me, this I swear again
Once a lover twice a friend

Maybe none of this is real
Maybe we're just doing it all wrong
Like in a fucked up song
Stormy sunday's on my mind
A prayer you whispered in the night
Now we're falling, we're falling

Are we starting over ?
We both know that things could be

Easier
If pleasure wasn't worth the pain
So much easier
But life would never taste the same
Someday I know we will dance again
Once a lover twice a friend

We both know that things could be

Easier
If pleasure wasn't worth the pain
So much easier
But life would never taste the same
Someday I know we will dance again
Once a lover twice a friend
Once a lover twice a friend

Bass : Did Thery

TROUBLES FOR YESTERDAY

Turning up the radio
And sing this shit song I just don't know why
I just feel alive
Watching people cross the street
I couldn't stop smiling if I tried
Everything's alright
Sometimes your day smells like your favorite dish
But only better
If you catch the moment it won't leave you
Grab a spoon and take a piece of life

You never know what to expect so come on !
Make the best of your day
What's the point of living if you sign your life away
We're here to catch the moment now go get it !
Grab a piece of your cake
For your fears won't make your problems go away
Save your troubles for yesterday

Fixing holes and taping pages
Sometimes all you need is a new track
Cut yourself some slack
Feeling good begins with feeling
You run away when you can't stop running
Now, can you take some time ?
For now you watch your life like it belonged
To someone else
Gotta catch it if you wanna live it
Make your move and see the world with brand new eyes

You never know what to expect so come on !
Make the best of your day
What's the point of living if you sign your life away
We're here to catch the moment now go get it !
Grab a piece of your cake
For there ain't no use in sowing a seed
If you ain't got time to watch it grow
You can try hard to be yourself,
But how can you be someone you don't know ?
Now you 're the only one to have the answer :
Do I really want to go with the flow ?

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal
Keys : David Hadjadi*

YOUR WAY

Do we still know who we are
I never thought that we could
Ever get that far
Going down a lonely road
Can't remember the last time
You got into my zone
And I hear your voice, your voice

We did it your way,
We played it your way
I've tried so hard but I can't breathe today
So I'll carry on my way, my way

What are we so scared to loose
I can hardly see you now that the time has
Come for us to chose
Close to break it all, please tell me it's alright
Maybe we'll be here forever
Or just gonna spend the night
And I need your voice

We did it your way,
We played it your way
I've tried so hard but I can't breathe today
So I'll carry on my way, my way

We did it your way,
We played it your way
I've tried so hard and now I'm tired to pray
Now it's time to find my place and make things
Happen here today

We did it your way,
We played it your way
I've tried so hard but I can't breath today
So I'll carry on my way,
Will you carry on my way

Come carry on my way

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal*

I DON'T WANNA KNOW

Tonight we are so close and yet
We don't make a sound
Let me reach out to your arms
Please don't let us down
Outside the world is waiting For us to be strong
Seven billion battles raging
Don't say right or wrong
I just wanna feel your warmth in the night
If life is a lie it's alright

I don't wanna know
I don't wanna know
I don't wanna know Tonight

Tonight we don't need to speak
Words could break us down
Let's run and hide under the sheets
Where we can't be found
Can we feel again like brand new
For now I'm holding on to you

I don't wanna know
I don't wanna know
I don't wanna know Tonight

To me you look like the shadow of a doubt
But I don't care, caus' you're all I need
We'll wonder tomorrow if we can make things right
But for now we are safe, 'til the end of the night

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal
Keys : Nicolas Frémont*

SACRED

Come and see it
Something on the way
Home
Look and fear it
Once there was a hope
But now it's gone

Time hides the answers
Now grab the pieces
Nothing's sacred
Anymore

Torn are our feelings
Sadness, anger
Something in between
We're hurt
But we're standing
Shouting out our prayers
To the wind

Time hides the answers
Now grab the pieces
Nothing's sacred
Anymore

Time hides the answers
Now grab the pieces
And spread your secret

Time hides the answers
Now grab the pieces
Nothing's sacred
Anymore

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal*

THE THINGS YOU DO

I never talked to you
But how I wish I could be someone
Like the ones I see
Live inside a dream
And never have to worry
About anything
Caus' I would die to be like you
Yeah I was born to be like you

Caus' I love all the things you do
And I know all that you came through
I've read the news and don't care if it's true
Yeah I know what I got to do
I've learned my lesson just like you
I'd kill myself to do the things you do

I live my life with you
I know where I belong
I'm a part of the world I see
Take me in your dream
Well, I live in the front row
Don't you turn your back on me
Caus' I was born to be like you
Yeah I would die to be like you

Caus' I love all the things you do
And I know all that you came through
I've read the news and don't care if it's true
Yeah I know what I got to do
I've learned my lesson just like you
I'd kill myself to do the things you do

Yeah I would kill to be like you
Caus' I love all the things you do
And I know all that you came through
I've read the news and don't care if it's true
Yeah I would die to be like you
You showed me what I got to do
I got the moves and I know what is true
Yeah I know what I got to do
I've learned my everything from you
I'd kill myself to do the things you do

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal*

WALK OUT

On my own, I'm here but not alone
Now it's you and me
Two strangers lost at sea
If I move left will you look right
Closer, almost skin-tight
Can you feel the life in me ?

Here my friend, There's no need to pretend
Take a chance on me
I'm stronger can't you see ?
It's the hard way and a long ride
But life is on my side
Will you dare to fight with me ?

If this is the best you can do, you'd better walk out
This time the joke is on you
I'm spitting you out, spitting you out

The harder it gets, man, the faster you fall
I'm down on my knees but I'm makin' you crawl
Mess with my senses, inside is out
It's all part of the plan
I can't breathe but I won't let go
I get closer, feel you so low
I can't see your face anymore
You can't win this war, no you can't win this war

If this is the best you can do, you'd better walk out
This time the joke is on you
I'm spitting you out, spitting you out

Stuck in the battle I'm taking the blows,
Freed from doubts and rage
I'm taking revenge and I'm not afraid anymore

On my own, I'll never be alone
No more you and me
My own worst enemy
You have lost this war with me

If this is the best you can do, you'd better walk out
This time the joke is on you
I'm spitting you out, spitting you out

*Voc, GT : Vinceman
Bass : Did Thery
Drums : JP Arnal*

RUNNING AFTER YOU

Cups on the table
Sugar and a spoon
Cups on the table
Sugar and a spoon, yeah

Cards on the table
Staring at the lows
Trying hard to find the proofs of love
Naked and exposed
Even if I'm sorry, what if you don't know
How do we get by when there's no sign ?
How could I let this grow
Do we end the story, starting something new
Even if I could, I know I'd still be
Running after you, running after you

Hearts on the table
Egos at the door
Now that words are back we turn the lights
On a state of war
Did I hurt your feelings, did I let you drown ?
Who's the man I'm seeing through your eyes ?
How could he hold you down ?
Did I ruin the story, like I think I do
Would you run away, you'd find me someday
Running after you, running after you

Did I scratch your confidence ?
Could I be this fool ?
When did silence become easier or better than the truth
Do we end the story, starting something new
Even if I could I know I'd still be
Running after you, running after you

Cups on the table
Sugar and a spoon
Cards on the table
Sugar and a spoon

IN THE END OF THE DAY

I used to be the kind of guy
Who could not understand
That things are made to change
Who would never ever lose a love or a friend
Who'd never feel estranged

What you took for granted can vanish so fast
Leaving you asking why
Can you build a future if you still live in the past
Some things are passing by

Caus' life sometimes
Can break your dreams and just take'em away
And who can tell
Who will be there by the end of the day

Happiness is just a moment that's running too fast
Catch it before it's gone
Keeping it would be too easy, it's not meant to last
We meet it as we go on

But life sometimes
Can crush your dreams if you don't want to stay
No one can tell
Who will be there in the end of the day

Could I ever love you more ?
It feels just like before
When the sun met the moon in your eyes
Let me take you by the hand
Can I kiss you again ?
You look so pretty tonight

I wish that I could hold you in my arms til the end
But nothing can last that long
And even if it's hopeless, still we can pretend
That our love can be that strong

Caus' life sometimes
Can be your dream if you're ready to play
And I'll do my best
To be by your side in the end of the day
